

CURRICULUM VITAE JOS PET

Version October, 2015

Family name **Pet**
First names **Johannes Simon (Jos)**
Date of birth 26-10-1962
Nationality Netherlands
Marital status Married
Mailing address Jalan Rajawali 100, Banyar Malmundeh, Desa Pandak Bandung, Bali, Indonesia.
Cell Phone +62-(0)8123-810-254
Email pet.jos@gmail.com

Education - 1975-1981: Secondary school, A-level, Leiden, The Netherlands.
- 1981-1984: Technical University, Delft, The Netherlands.
- 1984-1989: Agricultural University, Wageningen, The Netherlands.

Degrees - 1983: Propedeuse Mechanical Engineering
- 1989: M.Sc. (Cum Laude) Fisheries Biology and Fish Culture.
- 1995: PhD Tropical Fisheries Biology and Management.

Major disciplines - Fisheries Biology and Management
- Theoretical Production Ecology (system analysis and modelling)
- Fish Culture

Languages	Read	Write	Speak
- Dutch		(mother tongue)	
- English	Excellent	Excellent	Excellent
- German	Good	Adequate	Good
- Indonesian	Good	Good	Good

Employment and professional experience record

Present Co-owner and President Director of PT. Pet-Norton Consulting International. PNC is an international consulting and project management company, based in Indonesia and incorporated under the laws of Indonesia. PNC provides strategic planning advice; recommendations for project implementation; technical and project management services for all stages of project life cycles.

Indonesia 2007-2015 Co-owner and Marine and Fisheries Expert at PT. Pet-Norton Consulting Int. PNC provided consulting services in the following sectors for recent projects:

- management of natural resources, primarily forestry and fisheries
- assessment of environmental impacts of projects
- "green tourism" and eco-tourism
- public involvement and stakeholder engagement
- media and communications relating to conservation and sustainable development projects
- organizational governance and financial management.

- Indonesia 1999-2007 Program Manager at The Nature Conservancy (TNC) Coral Triangle Center (CTC) since 1999. Working with the Government of Indonesia and other local and international partners on development of programs for marine conservation and sustainable use of marine resources. Contributing to strategic planning and development of annual work plans in TNC Indonesia, responsible for CTC work-plans, budgets, reports and fundraising proposals. Member of the senior management team for the TNC Indonesia Program, working with regional staff on issues like priority setting, eco-regional planning and program evaluation. Responsible for the development of lobby tools such as papers and presentations, enhancing the communication of marine conservation issues at both national and international levels. Contributing to the development of partnerships with scientific institutions, government agencies, NGOs and the private sector.
- Responsible for science-based design and implementation of conservation initiatives at project sites and in communications, training, science, policy and finance programs, in cooperation with program managers, project leaders, park managers and other partners. Coordinating technical support to CTC and partner programs, with emphasis on the Komodo, Wakatobi, Rajah Ampat and Derawan Islands Marine Protected Area Projects. Supporting the leadership of the field projects with the management of program modules including planning & evaluation, enforcement, monitoring, applied research, awareness & education, and community development projects.
- Indonesia, 1995-1999 TNC Fisheries Management Specialist since 1998, Field representative, Program Manager and Program Scientist in 1995/6, 1997 and 1998 respectively. Working with the Directorate General of Forest Protection and Nature Conservation on environmental conservation in Indonesia. Responsible for the design of a management plan for the marine component of Komodo National Park, East Indonesia. Start-up and management of TNC's Komodo Field Office (12 support and counterpart staff) in Flores. Responsible for development and implementation of conservation initiatives (community development, zonation, enforcement, monitoring and research) in cooperation with the park management and other partners. Since 1998 involved in program and project development and evaluation, technical support to field projects and development of partnerships.
- Indonesia, 1995 Fisheries Scientist employed by the Department of Fish Culture and Fisheries, Wageningen Agricultural University, The Netherlands. Stationed in Ujung Pandang, South Sulawesi, Indonesia. Supporting the start-up of a fisheries research project in the Spermonde Archipelago (WOTRO/UNHAS Buginesia Project). Writing of papers for scientific journals, based on results from the NUFFIC/UNIBRAW/LUW Fisheries project in East Java, Indonesia. Support to the design and start-up of a fisheries research project in Ambon and the Lease Islands, Maluku Tengah, Indonesia.
- Sri Lanka, 1991-1993 1991: Ph.D. Researcher (Jr Scientist) employed by the Netherlands Foundation
The Netherlands, 1994 for the Advancement of Tropical Research. Cooperative project with the Department of Zoology of the Ruhuna University, Matara, Sri Lanka and the Centre for Limnology of the Netherlands Institute of Ecology. Project Title: Niche partitioning of indigenous riverine carps and the exotic lacustrine tilapia (*Oreochromis mossambicus*) in reservoirs in S.E. Sri Lanka. Based at the

Department of Zoology of the Ruhuna University, Matara, Sri Lanka. Responsible for start-up and management of the WOTRO Project on Inland Fisheries. Leader of research team.

1991-1994: Ph.D. Researcher (Jr Scientist) employed by the Department of Fish Culture and Fisheries, Wageningen Agricultural University, The Netherlands. Cooperative project with the Centre for Limnology of the Netherlands Institute of Ecology. Project Title: Biology and management of a mixed gillnet fishery for the exotic lacustrine tilapia, *Oreochromis mossambicus*, and endemic riverine cyprinids in reservoirs in Sri Lanka. Stationed at the Department of Zoology of the Ruhuna University, Matara, Sri Lanka from 1991 to 1993. Leader of research project on inland fisheries biology and management.

Indonesia, 1989-1990 Junior Scientist employed by Wageningen Agricultural University, based at the Faculty of Fisheries of the Brawijaya University, Malang, Indonesia. Design and implementation of research programs for Fisheries Biology and Fish Culture ('Dynamics in the East Java Purse-seine Fisheries' and 'Fish Poly-culture in Ponds'). Implementation of courses and practical training ('fish population dynamics' and 'fisheries biology and management').

The Netherlands, 1989 Junior Scientist employed at the Department of Fish Culture and Fisheries, Agricultural University Wageningen. Data analysis for Lake Victoria Project, Tanzania. Development of computer simulation model for gillnet fisheries.

Indonesia, 1988-1989 Apprenticeship and M.Sc. research at NUFFIC/UNIBRAW/LUW/FISH project, Malang, East Java. Development of a computer simulation model for fish culture in ponds. Stocking density experiment with *Clarias batrachus* in ponds.

Sweden, 1988 Apprenticeship at Board of Fisheries. Assistant researcher at research vessel and commercial trawlers during fisheries surveys on Baltic Sea, Skaggeak, Kattegat and North Sea. Assistant researcher at marine fisheries laboratory Lysekyl.
